EMPLOYMENT

UnitedHealth Group January 2012 - Present

As part of internal communications I work closely with communicators, stakeholders and media productions to create professional content for the corporate unitedhealthgroup.com, intranet properties and external campaigns. I'm responsible for code development, content management, testing, quality, production graphics, e-mail newsletters, audio production and video editing.

Key skills: HTML/CSS3 | Front-End Development | Adobe CC Suite | Bootstrap
Sitecore | Sharepoint | Adobe Experience Manager (AEM) | Epsilon | Flexbox
Human Centered Design

General Mills (Robert Half) October 2011 - April 2012

I was brought on as a web designer for an internal agency comprised of designers, developers and project managers. I created brand websites, facebook pages, e-mail newsletters and graphics for properties like Nature Valley, Old El Paso and Muir Glen.

Key skills: HTML/CSS | Graphic Design | Adobe Flash | Microsoft Visual Studio

Wolters Kluwer Financial Services July 2006 - August 2011

As part of the corporate web team, I partnered with development and marketing to create brand identities for the corporate website and several campaigns. I was also in charge of recording audio and webinars for our financial customers.

Key skills: HTML/CSS/Javascript | Camtasia | Graphic Design | Adobe Premiere
and Audition | Serena Collage CMS | Ektron CMS

USLink (TDS Metrocom) December 1999 - November 2004

Hired as a technical support representative, I was promoted to webmaster to manage content, coding and graphics for the company website. My role also expanded as part of the internet operations team to include responsibilities like web-hosting manager & support, system administrator, and providing web & graphic design for internal customers.

Key skills: HTML | Web Design | PERL/Bash Scripting | Unix
Server Administration (DNS, E-mail, Apache, Radius)
